02/ High performance

Because you need a lot of power to execute all your ideas.

Brushless motor, infinite motor

Its latest generation motor, without limits, offers **4 times longer** use than a traditional motor.

Speed Control System

Complete control over the juice extraction power. It maintains a constant speed providing more power when necessary.

Better operating system

**Don't spend more energy than necessary.** Multifruit makes the effort for you, to get an unbeatable juice.

Infinite autonomy

With the new **intensive use Countertop Kit**, you get **continuous waste removal**, facilitating management and operation.

New Removable tray

With optimised design, a cleaner way of collecting the drops.

JuiceZzz

It is a very silent and stable juicer (less than 70dB) thanks to its **Silent-Block** system.

Endless combinations

It can extract juice from apples, kiwis or pineapples, as well as carrots, cucumbers, celery or ginger.

...and Voilà

The result is a **pulp-free** high quality juice in just 5".

Efficient centrifuge and filtering

Its **centre grating disc** is designed to steer the fruit more easily for processing.

Everything in two speeds

It permits adapting the power in agreement with the hardness of the fruit and vegetables. Tap into all its possibilities with its 3500 rpm and 4500 rpm.

Implacable safety

It includes a complete **Safety System** so operation is only possible if all parts are mounted. It also has a thermal protection system for worry-free work.
